DRIVERS CLUB

MotorSportVision

The ARDC are very proud to announce our first track day with our new sponsors Motor Sport Vision, owners of Brands Hatch, Bedford Autodrome, Oulton Park, Snetterton and Cadwell Park.

Alfa Romeo track day at Snetterton on the 26th May 2006

With two of the fastest straights in British racing, Snetterton is a great challenge for any driver. The first two corners – Riches and Sear – are high speed turns where the key to being fast is not just to brake late, but to carry speed onto the Revett straight before the testing complex of twists and turns that make up the last part of the track.

The day will be split into three sessions - novice, intermediate and advanced - to guarantee that you will be on track with drivers of the same ability. For drivers who have not been on track before, there is an additional briefing at 9am to make sure you know what's needed before heading out on track. In addition to this MSV's friendly, experienced instructors will be on hand throughout the day to offer advice and in-car tuition.

After lunch we hope to run an open pit lane, allowing you to go on and off-circuit as you please. However, this will be dependent on driving standards.

- Price per car is £149.00
- Additional driver only £25.00
- Helmet hire is £10.00 for the day
- Extra passenger is £5.00
- ARDC members get FREE on track tuition
- Additional briefings and tuition at £25.00
- Test your driving skills
- Easily and safely learn to take your car to its limits
- Drive on the UK's leading racing circuits
- No speed traps
- No unmarked police cars
- No road works to slow you down

To book, go to the MSV site at:

Novice drivers

Intermediate drivers

Advanced drivers

It doesn't have to be just one driver that enjoys the day – you're more than welcome to bring friends and family along either as a passenger, spectator, to take pics or to drive themselves!!

It's going to be a great day out with Alfisti at a racetrack, along with a barbeque at the end of the day, it all adds up to a superb way to enjoy the Alfa marques.

Alfas are at their best on the racetrack – you owe it to yourself to experience a track day first hand!

Let's get out there and let those sweet cuore pump!
